

July 27, 2013

Dear Erik,

This letter is to let you know that the employees of your company did a very professional job on the painting project at 1700 Parkside Drive here in Walnut Creek. I think special recognition should go to Daniel the onsite foreman most of the time. He was always polite and professional when answering questions and concerns with various homeowners. He made plans to paint my particular building last because I had an active dove nest on my balcony. They all worked very hard and long during a weeklong 100 degree plus heat wave. Each day after working they did a very good job cleaning up and putting everything away. "Angel" also was a very professional employee of yours.

I think a company is only as good as the people who work for them and your employees were excellent.

It was a pleasure doing business with you! I'd appreciate if your employees received a copy of this letter also.

Thank you,

Debby Horton
