To Whom it May Concern:

Nick Rasmussen has been an excellent representative of Signature Painting. When My office contacted him, he was diligent about getting the bid to my office quickly which is amazing. As a property manager, many vendors do not respond quickly and need to be called again, not with Nick. He then worked directly with the owner, which was a challenge in itself. The owner required excellent people skills besides extreme understanding. Yet, Nick was able to work through all the issues and, at no time, made this owner feel that he was on her side. He never became aggressive and was very intolerant. The job was watched with scrutiny by many in town and the owner. Nick never wavered and continued to state that Signature Painting employees would get the job done under EPA guidelines and on time which is exactly what happened.

The next bid was another older building with another extremely difficult owner, he, at no time, became agitated or showed any frustration. The job was completed and the owner has reported that she was extremely please with Nick and the job completed.

He is steadfast, knowledgeable, extremely patient, and watches the job from beginning to end. I would always recommend Nick Rasmussen. His people skills are rare to find in this business.

Sincerely,

Jill Hoglund
